It is the largest university in Kenya, with a student population of over 100,000. The university is known for its commitment to academic excellence and its role in shaping the future of Kenya.

The most interesting phenomena of the University is its unique subculture where commissioned officers, officer cadets and non military students, both local and foreign are studying together in the same class. This environment automatically instills discipline into our students, and they acquire the necessary skills to work in multi cultural social settings. The University is able to maintain this unique culture due to the fact that students are selected through a rigorous interview process in which students with balanced personalities and skills are selected.

All KDU courses offered at present have also been fine-tuned to suit future needs of different fields so that our graduates will be in high demand anywhere in the world.
